

## **Town Chatter** with the (Interim) Chief Administration Officer **You have been asking...**

Why are the 4 lights on 100 St and Cardiff Road intersection not turned on?

- Lights actually belong to Alberta Transportation.
- Lights were put in the ground as part of the re-alignment of 100 St, but have not been energized yet.
- Fortis will be working directly with Alberta Transportation to complete this portion of the project and will bring the required infrastructure on site to energize the lights over the next few months.
