

# SNOW DUMP NOTICE

**TO:** Snow Dump Private Contractors  
**SUBJECT:** Morinville Snow Dump – Private Use  
**DATE:** January 4, 2022

Please be advised that the Town of Morinville is currently assessing the capacity and suitability of the Town's Snow Dump operations, including use by private contractors for non-Town related uses. Items under our review include:

- safety aspects
- environmental aspects
- risk and liability concerns
- cost of service
- operational impacts

This evaluation may result in changes to operations, including but not limited to: closure of the snow dump or stricter limitations for private contractors, implementation of costs for service, and/or change in operating hours for the Snow Dump, to name a few.

At this time, the Snow Dump will continue to be operational and available to private contractors who are providing snow removal services for Morinville customers only. A Snow Disposal Agreement as well as a site orientation is required prior to use. We are committed to allowing this service to continue for the remainder of the 2021/2022 winter season, up to April 2022, subject to available capacity within the site, suitable site conditions, and any other emergent conditions. It is anticipated that changes may come into effect for the 2022/2023 winter season.

Any questions regarding this notice, please contact:

Jordan Betteridge, P.Eng  
Manager, Infrastructure Services
